

Green Thumbs wanted

Hamilton Mountain News

Apr 25, 2008

Sunoco and the Suncor Energy Foundation, in partnership with Earth Day Hamilton, and the Bay Area Restoration Council, is pleased to announce its annual Tree Planting event Saturday, April 26 at Princess Point.

For 13 years, Sunoco has partnered with Earth Day Canada, conservation authorities and municipalities to organize tree-planting events in communities across Ontario.

Along with tree planting, families can enjoy many other activities at this year's event such as wagon rides, a raptor exhibit, and BBQs. Families can also learn about the environment and conservation by visiting the on-site educational displays.
