

## Shore cleanup needs canoeists

The Hamilton Spectator

(Sep 19, 2007)

The Bay Area Restoration Council (BARC) is looking for a few canoes and canoeists to help in the Great Canadian Shoreline Cleanup along the Hamilton Waterfront Trail.

If you are willing to bring your canoe down to the Desjardins Canal on Saturday at 9:30 a.m., please call Kelly Pike at BARC, 905-527-7111.

Pike says Lake Ontario's current low water level has exposed scrap tires and other junk just offshore that can best be collected by boat.

The annual, national cleanup organized by the Vancouver Aquarium and the TD-Canada Trust Friends of the Environment Foundation began last weekend and continues this weekend in both Burlington and Hamilton.

Glendale Secondary students will do their part at Van Wagner's Beach Friday morning, and Redeemer University College participants meet in the Dundurn Castle parking lot at 10 a.m. Saturday.

Burlington residents will gather in the soccer field parking lot behind Nelson Arena at 9 a.m. Saturday to tackle Shoreacres Creek.
