

**Hamilton Harbour Watershed Monitoring and Research Workshop
March 7, 2007**

Each year local Conservation Authorities host a workshop for those involved in Hamilton Harbour watershed monitoring and research. Approximately 65 researchers and observers attended the workshop. The research presented at this workshop is, in most cases, preliminary in nature and the workshop is intended as a forum for monitors and researchers to exchange information and ideas. The topics presented are included in the following list along with the presenters name and email address.

Provincial Water Quality Monitoring Network Spencer, Ancaster and Red Hill Creek	Diana Lupsa dlupsa@conservationhamilton.ca
